## WHY CLADDPLUS?

### ROBUST

Our panels feature a much stronger and robust tongue and groove connection than common 5mm panels this means no creaking, movement, or unsightly gaps

### PVC CONTENT

All our panels are 8mm or 10mm thick as standard and feature a minimum PVC content of 75% compared to that of the industry average of 35% to 50% making them stronger and more impact resistant than lesser quality alternatives.

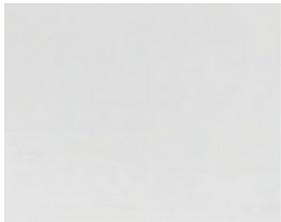

### HIGH QUALITY

Our panels are finished to the highest standard and free from common issues like discoloration, surface imperfections, and transparency.
